ELERTS is the #1 'See Something Say Something' mobile app for transits

HOW?

- Riders use ELERTS mobile app to report safety issues to transit police
- ELERTS app enables 2-way communication between riders and dispatch
- Riders report what they see and hear in real-time to transit police
- Riders send description of incident with photos or video
- GPS location sent with incident report so police know where situation is happening
- Increase security and safety without additional staffing
- Cloud based, no maintenance required
- Supports iPhone and Android phones
- NIMS Compliant
- Simple and easy to use

In a crisis situation, there is no better tool to provide instant information to help quickly resolve an issue
