Security of Safety Issue
 My dumb friends from my old school (•••••) have been laying down on the train tracks between ••••• Station and ••••• Station (closer •••••) on the ••••• line and then posting it on Snapchat. This mostly happens after school ends (2:05 pm). They did it this weekend and today.
 This is extremely dangerous and one of them is going to get seriously injured or killed. I have another picture from this weekend of another idiot doing this.

Report Details
 Date: Thursday, [redacted] Time: 8:27pm Report ID: [redacted] From: [redacted]

Disruptive Behavior:
 Jumping on to and out of tracks.
