

## ELERTS See Say

Empowering Transportation  
passengers and employees to  
**stop Human Trafficking**

# Human Trafficking Reporting

**Transportation Agencies** receive Human Trafficking Reports via ELERTS

**HUNDREDS of Human Trafficking Reports** received in last 12 months

This young lady was with these two men at the [REDACTED] train station about 12:30 today. They exited at [REDACTED]. In this weather her clothing was not warm enough for the weather. Also they appeared to be coaching her. I was uncomfortable and felt like she was being trafficked. Not sure what good this can do but it was weighing on me that this girl could be in danger.

# Real Human Trafficking Reports

## Human Trafficking

I think the woman next to this man may be held against her will. The man next to her keeps being very direct with her, making her drink water at his command, making her get up and ask other passengers for items. He's

now trying to get other women to "join him to make money".

We are on [redacted] train heading north. Pulling into [redacted] Station. Front rear facing passenger car

## Human Trafficking

Child endangerment. Woman has drugged child to silence her while woman panhandles.

## Human Trafficking

Man in red and individual, who looks to be an underage (pictured), seem to have an inappropriate relationship - witnessed kissing and rubbing mans upper leg.

## Human Trafficking

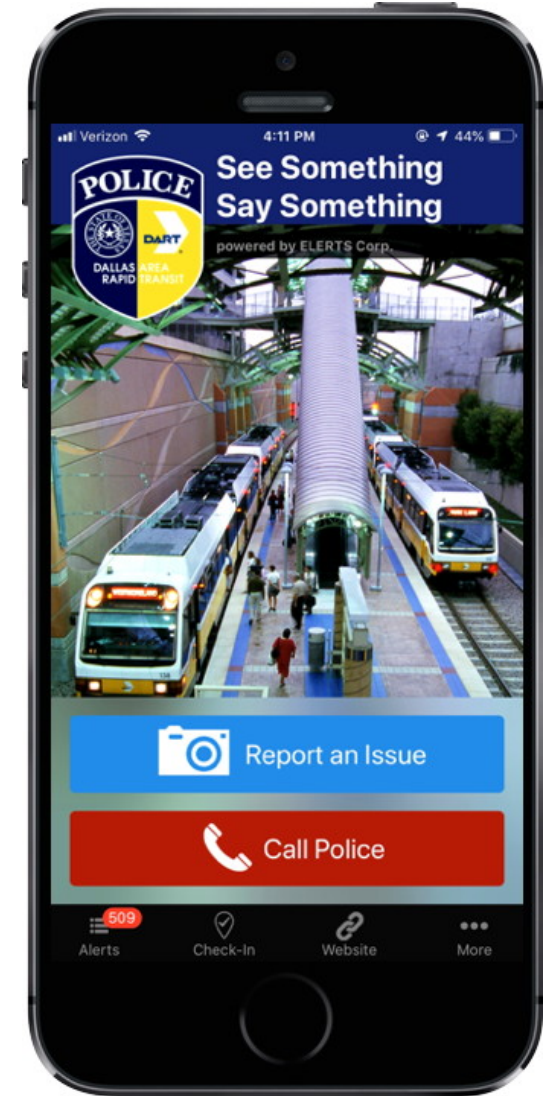

Possible human trafficking I was just on a [redacted] train that stopped at [redacted] and the female passenger was trying

to evade her fiend and the guy came back on [redacted] and said I'll slap you if u don't get off u could tell she was trying to run from him. She had a huge scratch on her neck that was somewhat bloody. She was wearing a purple sweater and purple shoes he was an African American male in his 30s

# Simple Tools for Passengers and employees

**Quickly report concerns  
privately to Authorities**

Mobile App, Web-App and Text-A-Tip
