

ELERTS Transit

See Something, Say Something

ELERTS Transit is a smartphone communication system to improve Mass Transit safety and security. Riders can quickly send reports about suspicious or criminal activities to transit police.

ELERTS Transit is used by:

WHY ELERTS Transit?

- Smartphones are "everywhere"
- Passengers become the "eyes and ears" of the system
- Riders can discreetly send a report at any time
- Reports include incident descriptions, photos, and maps
- Real-time two-way chat with transit police
- Web-based report management console
- Safety and travel alerts may be broadcast to riders
- High functionality in low bandwidth environments
- App disables Flash so riders can take a photo without being noticed
- "Store and forward" capability saves reports if signal is weak and automatically forwards when stronger
- Communication channel stays open throughout incident

Let ELERTS help.
